## PROJECTS / OPEN-SOURCE

**Send Notes**

*Laravel, Breeze, Livewire (Volt Class API), Fly.io, PostgreSQL, CI/CD*

- User Authentication & Account Management: Implemented secure login and registration using Laravel Breeze, ensuring robust session handling and data protection.
- Note Scheduling & Sending: Developed models and migrations for users to write, save, and schedule notes, which are sent publicly via email. Integrated cron jobs and queues to automate email dispatch.
- CI/CD Deployment: Automated application deployment using Fly.io, with PostgreSQL as the database for efficient, scalable data storage. Employed CI/CD pipelines to streamline updates.
